

06

Technical drawing of a mechanical part, showing a cross-section with dimensions. The part is symmetrical about a vertical centerline. The overall width is 70. The left side has a total width of 55, with a 10-unit wide section on the left and a 5-unit wide section on the right. The right side has a total width of 15. The part features a central circular hole with a diameter of 50. The height of the part is 23. The drawing includes a cross-section line (A-A) and a section line (B-B). The part is shown in a perspective view, with a dashed line indicating the hidden part of the section.

[illegible]

Technical drawing of a three-rail track section. The drawing shows three horizontal rails supported by cross-ties. The top rail is labeled 'a' and the bottom rail is labeled 'c'. The middle rail is unlabeled. The cross-ties are shown in cross-section. The dimensions are given in millimeters (mm) and are as follows:

- Distance from the left end to the first cross-tie: 70
- Distance between the first and second cross-ties: 70
- Distance between the second and third cross-ties: 165
- Distance between the third and fourth cross-ties: 80
- Distance between the fourth and fifth cross-ties: 170
- Distance between the fifth and sixth cross-ties: 140
- Distance between the sixth and seventh cross-ties: 170
- Distance between the seventh and eighth cross-ties: 80
- Distance between the eighth and ninth cross-ties: 165
- Distance from the ninth cross-tie to the right end: 70
- Distance from the right end to the tenth cross-tie: 70
